Care

Welcome!

THE LASER & SURGERY CENTER OF THE PALM BEACHES provides a wide range of services to patients in Northern Palm Beach County and its surrounding communities.

We are Medicare licensed and fully accredited by the Joint Commission, an independent national organization that oversees the safety and quality of health-care services in hospitals and surgery centers.

We offer the latest in surgical care and technology, backed by the experience of the finest physicians in the area, and a highly skilled and qualified support staff.

Our center is designed for the comfort, safety and convenience of adult and pediatric patients, with seven operating rooms, two gastroenterology suites, a YAG laser suite, and state-of-the-art surgical and anesthesia monitoring equipment, including technology specifically designed for children.

Our mission is to provide excellent care in a superior facility, enabling physicians to best serve the needs of you, their patient.

Our Personalized Care

Members of our staff will contact you by telephone two days before your surgery to gather information about your medical history, a list of your medications, and to answer any questions you may have about your upcoming procedures, obtain insurance information, and address any financial issues.

Our goal for you is to provide quality health care in a friendly, efficient, and cost effective manner.

The independent community physicians choosing the Laser & Surgery Center of the Palm Beaches are specialists in the following areas:

- Ear, Nose and Throat
- Gastroenterology
- General Surgery
- Gynecology Surgery
- Oculoplastic Surgery
- Ophthalmology
- Hand Surgery
- Orthopaedic Surgery
- Pain Management
- Plastic/Reconstructive Surgery
- Podiatry
- Radiation Oncology
- Retinal Surgery
- Urology
- Spine Surgery

Anesthesia

Our Anesthesia Department is staffed with highly skilled anesthesiologists and nurse anesthetists. Full anesthesia services are provided, including pre-operative same day care.

Accreditation

Our facility is one of the few that has met the same accreditation standards as hospitals set by the Joint Commission on Accreditation of Healthcare Organizations. This process sets high goals for us to achieve and challenges us to seek better and more innovative ways to provide the safest and best quality patient care possible.
